Hyundai Santa Fe RUNOUT

Say Goodbye to our Legendary Santa Fe Diesel

While our Santa Fe model will still be available in Petrol and Hybrid, we want to celebrate the legacy the diesel model leaves behind. We have limited stock of New Zealand's favourite family SUV.

Santa Fe Towing Capacity: 2,500 kg

Boating, camping, moving, exploring—with Santa Fe the sky's the limit for bringing along the necessary trailers, cargo and recreational vehicles. The Santa Fe is perfect for an active lifestyle and is equipped for up to 2,500kg of heavy-duty braked towing. Towbar is an extra cost option.

HTRAC All-Wheel Drive

Unlike other on demand all-wheel-drive systems, HTRAC™ variably controls the braking and power to the wheels. In combination with the drive modes, HTRAC™ improves acceleration, stability and fuel efficiency. The system increases traction while enhancing cornering performance to achieve optimal balance on every kind of road condition.

Whatever it is, take it with you.

Book your test drive today

Repayments are based on a Hyundai Santa Fe Elite Diesel with RSP of \$72,990 a \$15,000 deposit, an 13.95 % p.a. interest rate fixed for the 48 month term of the loan, a total kilometre allowance of 40,000km and an Assured Future Value (AFV) of \$35,953.39, a \$130 UDC establishment fee, \$10.35 PPSR fee, and a dealer origination fee of \$495 will apply. Payment amounts may vary depending on your chosen loan term, km allowance and deposit amount. This AFV offer is valid from 15/02/2024 to 31/03/2024 (or while stocks last) and is available on Hyundai Santa Fe Elite vehicles through UDC Finance. UDC Finance Limited's lending criteria, standard terms and conditions apply. AFV terms and conditions apply to any AFV contract. Total amount payable \$102,701.32
